

Each year DepositAccounts.com evaluates the financial health of every federally insured bank in the United States – more than 6,500 total. Each institution is graded on a number of factors, including capitalization, deposit growth, and loan to reserve ratios, in order to determine a comprehensive health score. (In 2013, DepositAccounts' health formula correctly pegged 100% of the bank failures as being in the bottom 2.5% (1 star rating) of all banks prior to their failures)

From the list of 6,500 banks, DepositAccounts.com recognizes those who have shown exceptional fiduciary responsibility in its 2014 edition of the **Top 200 Healthiest Banks in America...**
